

Year 2008 Projects					
Project Name	Activity	Project Description	Habitat Type	Acreage	Linear Miles
Ballenger Creek	Protection/Maintenance	The parcel is adjacent to Bass River State Forest and the Edwin B. Forsythe Preserve. This acquisition is a critical connector parcel along our State coastal area.	Tidal Wetland	225.63	0
Cassville Toms River Corridor	Protection/Maintenance	This property is a large tract of Township land and helps to preserve an important parcel along the Toms River.	Forested Wetland	27.68	0
Central Avenue - Manchester Township	Protection/Maintenance	The parcel is across the road from Manchester Wildlife Management Area and is adjacent to the future 6000 acre Heritage Minerals parcel donation. Property.	Forest/Woodland	30.4	0
Ciba Manchester	Protection/Maintenance	Bordering the Toms River, the easement over the Manchester Township property ensures that no active recreation will occur near the river and it remains protected. In addition, the Township donated 17.4 acres adjacent to the Toms River, just north of this site.	Forested Wetland	89.4	0
Crossley Preserve - addition	Protection/Maintenance	This forested Pinelands property located in the Barnegat Bay Watershed is almost completely surrounded by Crossley Preserve. This is a wilderness like property in an extreme fire hazard area and it will make an excellent addition to the Preserve.	Forest/Woodland	54.8	0
Great Bay Boulevard	Protection/Maintenance	The property consists of 8.46 acres along Great Bay Blvd adjacent to our Great Bay Wildlife Management Area. Fish and Wildlife will manage the property as part of their Great Bay Wildlife Management Area. The parcel will provide a public boat ramp.	Tidal Wetland	8.46	0
Lumley Tract	Protection/Maintenance	A highly regarded acquisition due to its size, location and nature. The NJ Natural Lands Trust has dedicated to partnering on this property with its mitigation fund acquired through the Stafford Business Park deal. A well-known hot spot for the threatened Northern Pine Spake	Forested Wetland	291.5	0
Manahawkin Marsh Inholding	Protection/Maintenance	This property completes a larger project area and is included in Stafford Townships open space plans.	Tidal Wetland	2.55	0
Manchester Township	Protection/Maintenance	The property is has a nice lake for fishing and birding. There are two bald eagles that nest at the site. The public is currently using the site for dog walking , fishing and birding. The site will be adjacent to the future donation of the Heritage Minera	Forest/Woodland	245.84	0
Martone	Protection/Maintenance	An important piece along the Davenport Branch of the Toms River. NLTF has dedicated to preserving properties along this corridor for protection of the resources	Forested Wetland	73	0
Paglia	Protection/Maintenance	This property is in close proximity to the Ridgeway Branch of the Toms River and the Sarama Homes property. Also nearby are the previously acquired TR Ridgeway Branch I and III properties.	Forest/Woodland	5	0
Route 9 Stafford II	Protection/Maintenance	Part of the larger Route 9 Stafford acquisition area. This area serves as a buffer from busy Route 9 and the US F&W Forsythe Refuge	Forested Wetland	11.4	0
Sarama Homes	Protection/Maintenance	This property is in close proximity to the Ridgeway Branch of the Toms River and the newly acquired Paglia property. Also nearby are the previously acquired TR Ridgeway Branch I and III properties.	Forested Wetland	10.9	0
Spodofora	Protection/Maintenance	This property was an important property to preserve as it held the access for utilities to an adjacent property which was at one time under threat of development.	Forest/Woodland	19.05	0
Talamas	Protection/Maintenance	Being near the not-yet developed County-owned Lochiel Creek Park, this site is in a key location with walking trails and is being actively used for passive recreation. The Lochiel Creek runs	Forest/Woodland	7	0

		through this property.			
Theibault	Protection/Maintenance	The Cabinfield Branch of the C-1 status Metedeconk River runs through this property. The donation for this property ensures that this property and water flowing to the Metedeconk and the Barnegat Bay is protected.	Forested Wetland	1.73	0
Westecunk Creek	Protection/Maintenance	The Westecunk Creek runs along the Northern perimeter of this property. This Creek is actively used for fishing and boating. Protecting this property also protects critical habitat for those animals using the creek.	Tidal Wetland	126	0
Total				1230.34	0
