

Year 2007 Projects

Project Name	Activity	Project Description	Habitat Type	Acreage	Linear Miles
Casco Bay Significant Wildlife Habitat Designation - Waterfowl and Wading and Shorebirds	Protection / Maintenance	CBEP's close partner, Maine Dept. of Environmental Protection, implemented a new rule protecting significant waterfowl, wading and shorebird habitat that limits any construction, digging, filling or other activities in these designated areas through a permitting process. The area covered by the rule includes the whole wetland complex and a buffer around it. For more information see http://www.maine.gov/dep/blwq/docstand/nrpa/birdhabitat/ 	Soft Bottom / Mud	4,078.00	0.00
Highland Lake Dam Improvements	Enhancement	Improvements to a damaged fishway on an existing dam and to the downstream Mill Brook channel to improve upstream and downstream passage of alewives to Highland Lake to allow for spawning and migration.	Other	640.00	0.00
Total				4,718.00	0.00
