

Year 2009 Projects

Project Name	Lead Implementer	Project Description	Habitat Type	Acreage	Linear Miles	Linear Feet
Central Falmouth Conservation Corridor	Town of Falmouth, Maine	Complex habitat protection project involving acquisition of conservation easements and fee interest in 5 parcels. project is part of a long-term town effort to establish a nearly continuous corridor of conserved lands with recreational access through the center of Falmouth, Maine.	Forest/Woodland	151	0	2485
Chandler Brook Preserve Riparian Planting	Royal River Conservation Trust	The project was a multi-species riparian planting using native trees and shrubs on an eroding stream bank and the adjacent floodplain. Labor was provided by volunteers from ten local Walmart stores. The stores and the volunteers also raised money to pay for purchasing the plant materials.	Riparian	1	0	1200
Plumbowl Easement	Presumpscot Regional Land Trust	The Presumpscot Regional Land Trust, a partner in the Presumpscot River Watershed Coalition which CBEP funds and hosts, received this easement from current landowners on 8/26/2008. The property is located in Gorham, Maine, within the Presumpscot River watershed. The Presumpscot River is the largest freshwater tributary to Casco Bay. The property is accessible to the public by boat.	Riparian	27.4	0	1350
Totten Road /Thayer Brook Open Botton Culvert Demonstration Project	Cumberland County Soil and Water Conservation District	Replacement of dual undersized culverts with a 14 foot wide single open-bottom arch structure that fully spans the stream and its banks.	In-Stream		0	2100
