

Year 2003 Projects

Project Name	Activity	Project Description	Habitat Type	Acreage	Linear Miles
Callosahatchee Creeks Preserve	Protection	Acquisition to preserve uplands; potential habitat	Uplands	1,116.00	
Cayo Costa State Park Restoration	Rehabilitation	Invasive exotic plant removal - Brazilian pepper Australian pine lead tree sea-side mahoe Washington palm beach naupaka and women's tongue	Uplands	83.00	
Cedar Point Park	Rehabilitation	Removal of exotic invasive plant species	Uplands	38.00	
Cedar Point Park Addition	Protection	Acquired for shoreline protection including estuarine mangrove fringe located off Oyster Creek	Uplands	17.00	
Charlotte Flatwoods Melaleuca Removal	Rehabilitation	Exotic species removal of Maleluca	Uplands	20.00	
Charlotte Harbor State Buffer Preserve	Rehabilitation	Aerial spray of invasive exotic vegetation	Wetland	75.00	
Charlotte Harbor State Buffer Preserve	Rehabilitation	Treatment to remove invasive exotic melaleuca seedlings	Uplands	100.00	
Charlotte Harbor State Buffer Preserve	Rehabilitation	Removal of invasive exotic Brazilian pepper from the edge of Coral Creek	Riparian	30.00	
Charlotte Harbor State Buffer Preserve	Protection	Acquisition of land for preservation within the Florida Forever boundary	Uplands	32.61	
Charlotte Harbor State Buffer Preserve	Protection	Acquisition of acreage for preservation within the Florida Forever project boundaries	Wetland	8.05	
Charlotte Harbor State Buffer Preserve	Rehabilitation	Treatment to remove invasive exotic melaleuca seedlings	Wetland	200.00	
Charlotte Harbor State Buffer Preserve	Rehabilitation	Treatment to remove invasive exotic melaleuca seedlings	Wetland	150.00	
Conservation 2020 Project 121 Pine Island Flatwoods Preserve	Protection	Pine flatwoods saltern marsh mangrove forest live oak hammock and freshwater wetlands	Uplands	364.90	
Conservation 2020 Project 194 Addition to Prairie Pines Preserve	Protection	Oak scrub Rare and Unique Uplands in the Lee Plan mature pines	Uplands	320.05	
Conservation 2020 Project 197	Protection	Cypress slough provides habitat for wading birds migratory and wide ranging species	Wetland	66.90	
Conservation 2020 Project 200 Wild Turkey Strand Preserve	Protection	Forested freshwater wetlands and forested upland	Wetland	2,040.60	
Conservation 2020 Project 202 Yucca Pens-Northwest Cape	Protection	Mosaic of forested freshwater wetlands and forested uplands	Wetland	14.50	
Conservation 2020 Project 206	Protection	Forage area for some protected species herbaceous wetland and pine flatwood habitats	Wetland	307.45	
Conservation 2020 Project 216 Addition to Six Mile Cypress Slough	Protection	Cypress slough extension of a cypress arm flow-way corridor	Wetland	43.12	
Conservation 2020 Project 217	Protection	Water quality enhancements and flood protection	Riparian	77.20	
CREW Land and Water Trust Rosbough/Gross	Protection	Acquisition of land within the Florida Forever boundary	Wetland	45.00	
CREW Management Center	Rehabilitation	Reestablishment of pine flatwoods and native grasses. Planted pine trees native grasses and dahoon holly.	Uplands	42.00	
Curry Creek Restoration	Rehabilitation	Removal of invasive exotic plants Brazilian pepper Australian pine castor bean lead tree etc.	Uplands	23.00	
Don Pedro Island State Park	Rehabilitation	Restore mesic flatwoods to original condition through roller-chopping	Uplands	38.00	
Don Pedro Island State Park Restoration	Rehabilitation	Invasive exotic plant removal - Brazilian pepper Australian pine melaleuca and Madagascar periwinkle	Uplands	55.00	
East Bird Rookery Swamp (CREW)	Rehabilitation	Reestablishment of pine flatwoods. Removed Brazilian pepper trees.	Uplands	70.00	

East Corkscrew Marsh (CREW)	Rehabilitation	Reestablishment of pine flatwoods/hammock. Planted slash pines native grasses and wildflowers.	Uplands	80.00	
Estero Bay State Buffer Preserve	Rehabilitation	Exotic plant removal work at 3 locations. Treatment of exotic invasive species after aerial spraying in March 2001 hand crew removal	Wetland	102.00	
Estero Bay State Buffer Preserve	Protection	Acquisition of buffer lands to Mullock Creek	Uplands	364.30	
Estero Bay State Buffer Preserve	Protection	High Resource land acquired through exchange of one acre of highway property. Acquisition helps provide additional continuity and preservation of lands with Florida Forever boundary	Uplands	13.41	
Estero Bay State Buffer Preserve	Protection	Acquisition of land for preservation within the Florida Forever boundaries	Estuarine	710.00	
Estero Bay State Buffer Preserve - Bigelow exotic plant removal	Rehabilitation	Initial treatment of invasive exotic plants. Removal work performed by aerial spraying and ground hand crew treatment.	Estuarine	31.00	
Estero Bay State Buffer Preserve - Bigelow property	Protection	Acquisition of land for preservation	Uplands	74.60	
Estero Bay State Buffer Preserve - Estero River scrub habitat restoration	Rehabilitation	Restoration work in areas densely impacted by melaleuca trees exotic plant removal wetland creation replanting native vegetation	Estuarine	16.00	
Estero Bay State Buffer Preserve - Hendry/Mullock Creek Grant (Hendry Creek.TNC parcels)	Rehabilitation	Initial treatment of invasive exotic plants by ground hand crews	Estuarine	6.00	
Estero Bay State Buffer Preserve - Hurricane Bay Cow & Winkler Points exotic plant removal work Bigelow exotic plant removal	Rehabilitation	Initial treatment of invasive exotic plants removal of hazardous dead vegetation. Removal performed by ground hand crews	Estuarine	36.00	
Estero Bay State Buffer Preserve Cow Slough Connection Grant	Rehabilitation	Invasive exotic plant removal. Initial treatment of exotic plants via aerial spraying and ground hand crew treatment	Estuarine	563.00	
Estero Bay State Buffer Preserve Fire break creation	Rehabilitation	Initial preparation to rehabilitate overgrown locations.Prescriptive fire reintroduction with site preparation by roller-chop mulching boundary and interior areas	Uplands	540.00	
Estero Bay State Buffer Preserve Gopher Tortoise Habitat Restoration	Rehabilitation	Scrubby and pine flatwoods prepared for prescriptive fire to improve gopher tortoise habitat remove exotics	Uplands	23.00	
Estero Bay State Buffer Preserve Hendry/Mullock Creek Grant (Hendry Creek/TNC parcels)	Rehabilitation	Hydrologic restoration installing culvert	Estuarine	2.53	
Estero Bay State Buffer Preserve Hendry/Mullock Creek Grant (Staffile & Haywood parcel)	Rehabilitation	Invasive exotic plant removal via aerial spraying and ground hand crew. Initial treatment	Estuarine	58.00	
Estero Bay State Buffer Preserve Hurricane Bay Mosquito Ditch	Rehabilitation	Spoil piles created from old mosquito control ditching effort. Exotic invasive plant removal by hand crew	Mangroves	5.00	
Gasparilla Island State Park Restoration	Rehabilitation	Invasive exotic plant removal - Brazilian pepper Australian pine lead tree castor bean wedelia carrotwood s.balsam-pear Burma reed laurel fig sisal hemp Washington palm and women's tongue	Uplands	47.00	
Gator Hole Preserve	Rehabilitation	Mechanical clearing of melaleuca for fire break construction to ultimately protect flatwood habitat	Uplands	80.00	
Herons Cove Conservation Easement	Rehabilitation	Mechanical chopping and burning to restore oak scrub	Uplands	22.00	
Highlands Hammock State Park	Rehabilitation	Restore mesic flatwoods to original condition through roller-chopping mowing and prescribed burning	Uplands	207.00	
Highlands Hammock State Park Restoration	Rehabilitation	Invasive exotic plant removal - Brazilian pepper lead tree air potato dianella lily sicklepod coral ardisia guava Caesar's weed and Madagascar periwinkle	Uplands	15.00	
Island Water Association Water Plant	Rehabilitation	Restoration to native plants with demolition and	Uplands	1.40	

		removal or structures			
Island Water Association Water Plant	Rehabilitation	Restoration to native plants with demolition and removal or structures	Uplands	1.00	
Koreshan State Historic Site	Rehabilitation	Restore mesic flatwoods to original condition through roller-chopping	Uplands	3.00	
Koreshan State Historic Site Restoration	Rehabilitation	Invasive exotic plant removal - Brazilian pepper Australian pine lead tree Japanese climbing fern cogon grass rosary pea melaleuca women's tongue downy rose myrtle laurel fig eucalyptus and many other species	Uplands	168.00	
Lovers Key State Park Restoration	Rehabilitation	Invasive exotic plant removal - Brazilian pepper Australian pine ;lead tree sea-side mahoe Burma reed lantana wedelia beach naupaka women's tongue and other species	Uplands	135.00	
Myakka Pines - King	Protection	Acquisition of land for protection	Riparian	21.50	
Myakka Prairie	Rehabilitation	Restore dry prairie and mesic flatwoods to original condition through roller-chopping and prescribed burning	Uplands	213.00	
Myakka River State Park	Rehabilitation	Restore dry prairie and mesic flatwoods to original condition through roller-chopping and prescribed burning	Uplands	918.00	
Myakka River State Park Control of Invasive Grasses	Rehabilitation	Invasive exotic grass removal	Uplands	1.00	
Myakka River State Park - Hydro period Restoration Project	Rehabilitation	Lower 2 miles of railroad grade and backfill ditches to restore hydrological and ecological functions	Uplands	48.00	
Myakka River State Park Restoration	Rehabilitation	Invasive exotic plant removal - air potato West Indian marsh grass Brazilian pepper citrus melaleuca tropical soda apple philodendron Old World climbing fern Caesar's weed cogon grass wild taro and rosary pea	Uplands	6.00	
North River Road Preserve - Vinton	Protection	Acquisition of land for protection	Riparian	4.10	
Oyster reef enhancement	Rehabilitation	Oyster reef enhancement within historic oyster area of Charlotte Harbor	Estuarine	0.10	
Paynes Creek Historic State Park Restoration	Rehabilitation	Invasive exotic plant removal - air potato common bamboo Caesar's weed cogon grass wild taro and rosary pea	Uplands	34.00	
Persimmon Ridge Preserve	Rehabilitation	Mechanical clearing of palmetto and scrub oaks to improve gopher tortoise habitat and land treatment of various invasive exotic species	Uplands	45.00	
Pine Island Center Preserve	Protection	Native habitat consisting of wetlands mangrove fringe and slash pine will be preserved rather than converted to ball fields	Uplands	40.00	
Pine Island Flatwoods Preserve	Rehabilitation	Mechanical clearing of melaleuca and Australian pines	Uplands	25.00	
Pineland Site Complex - Randell Research Center	Protection	Natural habitats include tidal saltern tidal creek intertidal shoreline mangrove wetland	Uplands	0.31	
Rocky Ford - Schmidt	Protection	Acquisition of land for protection	Riparian	7.84	
San Casa Environmental Park	Protection	Acquired for shoreline protection including estuarine mangrove fringe located off Oyster Creek and the protection of uplands	Uplands	120.00	
Sister Keys Preserve	Protection	Mangrove islands with buttonwood seagrape strangler fig	Mangroves	7.50	
Southern Critical CREW	Protection	Acquisition of lands with CREW Florida Forever project boundaries.	Wetland	307.00	
St. James Creek Preserve expanded	Protection	Exotics will be removed to restore native habitat	Uplands	1.10	
Stump Pass State Park Restoration	Rehabilitation	Invasive exotic plant removal - Brazilian pepper Australian pine carrotwood and women's tongue	Uplands	38.00	

The Brooks Flowway	Rehabilitation	Restoration of water flows that had been cut off from its basin from 100 cfs to 900 cfs through construction of 2 flowway slough systems. Protection of pine flatwoods planting of wetland littoral system	Wetland	466.00	
Tree Wizard (CREW)	Rehabilitation	Reestablishment of pine flatwoods and establishment of wetlands	Wetland	10.00	
Warm Mineral Springs - Baltzer	Protection	Acquisition of land for protection archaeological site natural spring	Other	0.22	
Warm Mineral Springs - Culpepper	Protection	Acquisition of land for protection archaeological site natural spring	Other	0.22	
Warm Mineral Springs - Hordienko	Protection	Acquisition of land for protection archaeological site natural spring	Other	0.44	
Warm Mineral Springs - Trappman	Protection	Acquisition of land for protection archaeological site natural spring	Other	0.22	
Willow Lake Preserve	Protection	Initial purchase of land within boundaries of future preserve on Pine Island	Uplands	3.00	
Winchester Mitigation Site	Protection	Upland restoration and scrub jay management site.	Uplands	35.00	
Yellow Fever Creek Preserve	Rehabilitation	Mechanical clearing of melaleuca for fire break construction to protect flatwoods	Uplands	51.00	
Yucca Pens WMA	Protection	Acquisition of intact pine flatwoods for habitat protection	Uplands	30.90	
Yucca Pens WMA	Rehabilitation	Invasive exotic vegetation eradication - melaleuca and Brazilian pepper	Uplands	600.00	
Total				11,716.07
