

Year 2004 Projects

Project Name	Activity	Project Description	Habitat Type	Acreage	Linear Miles
Addition to Caloosahatchee Creeks Preserve #225	Protection	Acquisition for protection	Wetland	1.21	
Ainger Creek	Protection	Acquisition to protect habitat	Riparian	61.00	
Alligator Creek Restoration Project 16	Rehabilitation	Restoration projects to remove exotic vegetation and restore a more natural hydrology	Riparian	350.00	
Babcock-Webb Wma-Yucca Pens Unit/DaGiau	Protection	Acquisition to preserve and protect native flora and fauna	Uplands	5.00	
Babcock-Webb Wma-Yucca Pens Unit/Goldstein	Protection	Acquisition to preserve and protect native flora and fauna	Uplands	5.00	
Babcock-Webb WMA-Yucca Pens Unit/Marcus	Protection	Acquisition to preserve and protect native flora and fauna	Uplands	15.50	
Babcock-Webb WMA-Yucca Pens Unit/McGowan/Grieco	Protection	Acquisition to preserve and protect native flora and fauna	Uplands	5.20	
Babcock-Webb WMA-Yucca Pens Unit/Rivas	Protection	Acquisition to preserve and protect native flora and fauna	Uplands	20.20	
Babcock-Webb Wma-Yucca Pens/Marcus	Protection	Acquisition to preserve and protect native flora and fauna	Uplands	15.70	
Babcock-Webb WMA-Yucca Pens/Ortega	Protection	Acquisition to preserve and protect native flora and fauna	Uplands	20.15	
Big Hickory Island Preserve	Rehabilitation	Exotic plant removal, melaluca, Brazilian pepper, Australian pine	Uplands	7.00	
Caloosahatchee Creek Preserve restoration	Rehabilitation	Restoration of spoil areas to native habitat	Wetland	20.00	
Caloosahatchee Creeks Preserve	Rehabilitation	Exotic plant removal and replanting with maritime hammock species	Uplands	65.00	
Caloosahatchee Regional Park Wetland Habitat Improvement Program	Rehabilitation	Removing exotics and replanting to restore wildlife habitat	Wetland	60.00	
Cape Coral Brazilian Pepper Eradication	Rehabilitation	Eradication of Brazilian pepper trees and other undesirable exotic vegetation	Uplands	50.00	
Cape Haze/Charlotte Harbor Florida Forever	Protection	Acquisition of net 258 acres through land exchange	Estuarine	258.00	
Cayo Costa Florida Forever Project	Protection	Acquisition of property for preservation	Barrier Island	9.41	
Cayo Costa/North Captiva	Protection	Acquisition to preserve barrier island ecosystem	Barrier Island	0.92	
Cedar Point Park	Protection	Acquisition of land for preservation and prevention of land fragmentation	Uplands	1.87	
Charlotte Harbor	Rehabilitation	Removal of Australian pine, melaluca, Brazilian pepper	Estuarine	420.00	

Buffer Preserve					
Charlotte Harbor Flatwoods	Protection	Acquisition to preserve and protect natural uplands communities	Uplands	20.15	
Charlotte Harbor - South Yucca Pens & South Matlacha Pass & Spreader Waterway	Rehabilitation	Eradication of Brazilian pepper through spraying and hand removal	Wetland	25.00	25.00
City of Lakeland (Tenoroc)	Protection	Acquisition to preserve and protect	Uplands	71.60	
City of Sanibel	Rehabilitation	Eradication of invasive exotic plants, vegetation and restoration of environmentally sensitive lands	Barrier Island	100.00	
Clam Bayou/Dinkins Bayou Restoration	Re-Establishment	Reconnect channel underneath Sanibel-Captiva Road between Dinkins and Clam Bayous, and remove invasive exotic species.	Estuarine	340.00	
Critical Crew	Protection	Acquisition to maintain and restore historic flow way, 2 parcels, 2.5 and 5 acres	Wetland	7.50	
Critical CREW - Holton parcel	Protection	Acquisition for habitat preservation and preservation of sheet flow	Wetland	10.00	
Critical CREW - Snow parcel	Protection	Acquisition for habitat preservation and preservation of sheet flow	Wetland	5.00	
Critical CREW project	Protection	Acquisition to protect and restore historic flow way	Wetland	4.50	
Critical CREW Zimmerman Acquisition	Protection	Acquisition of land for permanent preservation, and preserve sheet flow through Corkscrew swamp	Uplands	0.98	
Critical CREW/Imperial Flow way	Protection	Acquisition to preserve historic sheet flow through the Corkscrew Regional Ecosystem	Wetland	20.58	
Critical CREW-Baumert	Protection	Acquisition to preserve and restore historic flow way	Wetland	5.00	
Critical CREW-Evans	Protection	Acquisition for preservation and restoration of historic flow way	Wetland	10.00	
Curry Creek Preserve Habitat Restoration	Rehabilitation	Removal of exotic invasive species and restoration of coastal stream	Uplands	95.00	
Cypress Gardens	Protection	Conservation easement over 150 acres of property to prevent land fragmentation, preserve riparian land	Uplands	150.00	
Daughtrey's Creek Exotic Removal	Rehabilitation	Restoration of flow way through exotics removal	Riparian		2.00
Deep Lagoon Preserve	Rehabilitation	Removal of exotic plants	Wetland	10.00	
Deer Prairie Creek - LOR property	Protection	Acquisition project that provides critical buffer and protected corridor along the ""Wild & Scenic"" designated Myakka River	Uplands	3,600.00	
Deer Prairie Slough Restoration	Rehabilitation	Restoration of wetland slough by improving natural hydrology through backfilling of ditches. This is increasing wetland hydroperiod, improving wildlife habitat, inducing surficial aquifer recharge, improving water quality and reducing exotic plants.	Uplands	480.00	1.40
Don Pedro/Stump Pass Restoration Phase V	Rehabilitation	Exotic plant removal program designed to reduce the presence of nuisance plant species, primarily Brazilian pepper and Australian pine trees,	Barrier Island	10.00	
Estero Bay Watershed Initiative	Rehabilitation	Restoration of floodplain to improve water quality of stormwater runoff to Imperial River.	Riparian		2.00
Facilitating Agriculture Resource Management Systems Program	Rehabilitation	Restoration of natural flow to Peace River via Shell, Joshua and Prairie Creeks through back plugging and improved management practices	Uplands		45.00
Gum Slough Protection Priority Site - Heritage Ranch	Protection	Conservation easement over 1972 acres	Wetland	1,972.00	

Headwaters Alligator Creek Restoration	Rehabilitation	Exotic removal and hydrologic restoration	Wetland	10.00	
Imperial Marsh Preserve	Rehabilitation	Removal of invasive exotic Brazilian pepper by Department of Corrections	Uplands	5.00	
J.N. :""Ding"" Darling Removal	Rehabilitation	Restoration through removal of invasive exotic Brazilian pepper	Uplands	20.00	
Lake Hancock Buffer Acquisition	Rehabilitation	Mechanical control of exotic invasive species: tropical soda apple and caesar weed	Uplands	300.00	
Lake Hancock/Upper Peace River System	Rehabilitation	Restore the 600 acres of wetlands along Banana Creek which traverses the 1200 acre Circle Bar B Reserve.	Wetland	600.00	
Lakes Park Master Plan	Rehabilitation	Exotic removal, planting of native vegetation	Uplands	121.00	
Lee County Flow way Exotics Removal	Rehabilitation	Removal of exotic invasive plants from creeks and flow ways	Riparian		55.00
Lemon Bay Conservancy - Mangrove Place	Protection	Land was acquired for preservation through private donation to the Lemon Bay Conservancy.	Estuarine	0.27	
Lemon Bay Ecosystem Restoration	Rehabilitation	Removal of exotics and hydrologic restoration	Estuarine	12.00	
Lemon Bay Preserve Ecosystem Restoration	Rehabilitation	Restore and enhance 50 acres of mangrove, freshwater and estuarine ecosystems on Lemon Bay Preserve	Estuarine	50.00	
Lemon Bay Preserve Hydrologic Restoration	Rehabilitation	Create a more natural tidal/brackish water ecosystem in Lemon Bay that enhances quality and improves fish and wildlife habitat	Estuarine	165.00	
Myakka Conservancy Easement	Protection	Conservation easement on 25 acres of Myakka River frontage	Riparian	25.00	
Myakka Prairie	Rehabilitation	Removal of invasive exotic species to restore natural sheet flow	Uplands	10.00	
Myakka River - Schewe parcel	Rehabilitation	Restoration and protection of land in its natural state and condition, treatment of scattered infestations of melaluca	Uplands	95.00	
Myakka River Watershed Restoration	Rehabilitation	Initial phase of eradication of Hyamenachne amplexicaulis, an invasive exotic grass from South America	Wetland	1.00	
Myakka State Park Hydrologic Restoration	Rehabilitation	Restore approximately 6 miles of hydrologic alterations caused by historic fire plow-lines and ditching of wetlands and sloughs in the northeast section of Myakka River State Park.	Wetland		6.00
Myakkahatchee Creek Environmental Park Restoration	Rehabilitation	Restoration of wetlands through the removal of old fill within a previously disturbed area of the site	Wetland	11.00	
Newton Beach Park	Protection	Acquisition to preserve beach and dune, loggerhead turtle nesting habitat	Beaches and Dunes	1.00	
North River Protection Priority Site - Rohlwing parcel	Protection	Acquisition of property to protect 8,000 feet of river shoreline of Wild and Scenic River	Riparian	86.90	
Old Florida Plantation	Protection	Purchase of Critical component to recovery strategy for the Upper Peace river	Uplands	3,536.00	
Oyster Creek Environmental Park	Protection	Acquisition for protection of 152 acres for multiple uses including habitat preservation and wildlife corridor connectivity	Uplands	152.00	
Pineland Site Complex	Protection	Acquisition of tidal saltern, a tidal creek, intertidal shoreline, and a large tract of mangrove wetland. Ponds on the property are important to white ibis, egrets, herons, and wood stork. The intertidal shoreline has an eastern oyster bar community, numerous species of gastropods and bivalves, and black and red mangroves. Shoreline shell mounds exhibit a distinctive plant community. Sire is adjacent to Florida Aquatic Preserve.	Estuarine	7.19	

Popash Creek Exotics Removal	Rehabilitation	Restoration of flow way through exotics removal	Riparian		1.00
RV Griffin Reserve	Rehabilitation	Exotic species removal through mechanical and prescribed burns	Uplands	50.00	
San Carlos Bay-Bunch Beach Preserve	Rehabilitation	Remove invasive exotic plants to enhance natural habitat for wading and migratory birds, bald eagles and wood storks	Estuarine	103.00	
San Carlos Bay-Bunch Beach Preserve	Rehabilitation	Removed invasive exotic plants	Beaches and Dunes		1.00
Sanibel City Beach Parks	Rehabilitation	Restoration through the removal of invasive exotic Brazilian peeper	Barrier Island	25.00	
Sanibel City Beach Parks Dune Plantings	Rehabilitation	Restoration of beach dunes with native plants	Beaches and Dunes	10.00	
Sanibel Exotics Removal	Rehabilitation	Removal of Australian pines	Barrier Island	700.00	
Six Mile Cypress Preserve	Protection	Extension of a cypress arm flow-way corridor which also serves as a corridor for wildlife	Wetland	2.00	
Slough and Marsh Restoration	Rehabilitation	Restoration of slough and marsh flow by removing g invasive exotic plants	Riparian		9.00
Southwest Florida Regional Airport	Rehabilitation	Removal of exotic invasive species , restoration of natural hydrology acreage in excess of required for mitigation - net gain of wetlands	Wetland	540.00	
Stroh Parcel, Englewood	Rehabilitation	Removal of Brazilian pepper trees to restore native habitat by volunteers	Mangroves	6.00	
Upper Myakka River Watershed/Deep Creek Preserve	Rehabilitation	Removal and treatment of Old World climbing fern and air potato	Wetland	149.00	
Warm Mineral Springs - Anton/Egner Parcel	Protection	Acquisition for protection of land adjacent to Warm Mineral Springs	Uplands	0.30	
Warm Mineral Springs - Fraser Parcel	Protection	Acquisition for protection of land adjacent to Warm Mineral Springs	Uplands	0.22	
Winter Haven Rails to Trails	Protection	Acquisition to preserve, protect and restore former railway to native habitat	Uplands	2.50	
Total				15,124.85	147.40
