

Year 2004 Projects

Project Name	Activity	Project Description	Habitat Type	Acreage	Linear Miles
Coastal Watershed Land Protection Transaction Fund	Protection	The NHEP and the Center for Land Conservation Assistance established the Coastal Watershed Land Protection Transaction Fund to provide matching funds to land trusts, municipalities, and other conservation organizations involved in permanently protecting land from development. The NHEP funds covered as much as half the costs for land protection transactions, including legal fees, survey costs, and other related expenses.	Uplands	1,158	
NH DES Shellfish Program Sanitary Surveys	Enhancement	The NHEP funded the NH DES Shellfish Program to conduct sanitary surveys which include shoreline surveys for pollution sources, ambient water quality monitoring, and studies to evaluate relevant hydrographic and meteorologic factors. Surveys and other work performed by this project resulted in the opening of additional areas for shellfish harvest in Little Bay.	Estuarine	249
