

Year 2004 Projects

Project Name	Activity	Project Description	Habitat Type	Acreage	Linear Miles
Branson Beach	Protection	Protect existing habitat features and "feeder bluff" processes along an urbanized marine shoreline by nearshore acquisition of Branson Property.	Estuarine	6.27	
Christianson Creek	Protection	Purchase corridor properties designed to protect the entire watershed and water quality in Quartermaster Harbor, an important forage fish spawning grounds	Riparian	30.00	
Deadman Slough	Re-Establishment	Purchase 243 acres and remove dikes to restore 443 acres of tidal influence to the Snhomish delta.	Estuarine	353.00	
Gorst Estuary Wildlife Preserve	Rehabilitation	Purchase initial properties for a planned 112 acre park with 104 acres of tidelands and begin clean up	Estuarine	12.80	
Henry Island Isthmus	Protection	purchase property to protect fragile coastal feature from development	Beaches and Dunes	25.00	
Icy Creek	Protection	Acquisition to prevent development	Uplands	192.00	
Ink Blot and Schumocher Creek Natural Area Preserves	Protection	Purchase additional acreage adjacent to established state preserves.	Wetland	385.00	
Jimmycomelately Nearshore Restoration	Rehabilitation	Purchase properties and begin realignment of Dean Creek to allow floodplain and tidal distributary processes as part of the lower Sequim Bay restoration project	Estuarine	11.25	
Little Mountain Park Expansion	Protection	Purchase additional acreage to add to existing urban parkland and protect from incompatible development allowed under existing zoning	Uplands	27.20	
Lower Skokomish	Protection	Purchase for eventual restoration of floodplain wetlands	Wetland	165.00	
Lummi Island Natural Area	Protection	Acquire additional blocks to add contiguous acreage to existing Natural Area Preserve and block encroaching development.	Riparian	295.00	
Naches Trail Preserve	Protection	Purchase to protect from development and eventual restoration.	Riparian	50.00	
Nisqually-Mashel	Protection	Purchase to add acreage to existing state parks land	Uplands	250.00	
Nookachamps Creek	Protection	Acquisition to prevent degradation from encroaching development	Wetland	520.00	
Qwuloolt Phase III	Protection	Final purchase of property needed to remove dike to restore 390 acres of tidal influence	Estuarine	36.00	
Salmon and Snow Creeks	Protection	Purchase riparian floodplain strategically located to protect water quality, salmon migration and rearing and estuarine processes in Discovery Bay	Riparian	107.00	
Salmon Bay Natural Area	Rehabilitation	Purchase final parcel of upland property, design and construct public access and interpretive facilities	Estuarine	0.30	
Shadow Lake Acquisition	Protection	Purchase additional acreage for the Shadow Lake Bog	Wetland	54.00	
South Padilla Bay	Re-Establishment	Acquire property and restore tidal influence	Estuarine	440.00	
Telegraph Slough Complex	Protection	Purchase key property needed for restoration of tidal and flood flow connection between river and Padilla Bay	Estuarine	200.00	
Weaverling Spit	Protection	Purchase for eventual restoration in concert with development of resort on adjacent uplands	Estuarine	35.00	0.20
Whitmarsh/Gages Slough	Protection	Purchase and preliminary design for eventual restoration by levee setback	Riparian	51.00	
Total				3,245.82	0.20
