

Year 2007 Projects

Project Name	Activity	Project Description	Habitat Type	Acreage	Linear Miles
Anderson Point	Protection / Maintenance	Acquisition of 72 acres for new waterfront park in Kitsap County. Park will be maintained in a relatively undeveloped state with an access road to the beach and low intensity activities.	Beach	72.00	0.00
Arrowhead Lagoon Restoration	Restoration / Rehabilitation	Replace failing culvert with a bridge, remove fill and revegetate in conjunction with property owners association improvements.	Tidal Wetland	2.00	0.00
Beaver Creek Estuary Restoration	Restoration / Re-establishment	Remove an outlet fish ladder and upgrade a culvert to allow better tidal influence into Beaver Creek on Manchester Fuel Depot.	Tidal Wetland	4.50	0.00
Bee Spit Honey Acquisition / Restoration	Enhancement	Acquire three parcels and conduct native riparian plantings to connect other public land holdings at bridge crossings along state highway.	Riparian	20.00	0.00
Belfair State Park Estuary Restoration Phase 1	Restoration / Re-establishment	Remove tide gate and concrete swimming pool, regrade upland fill to intertidal elevations and place large woody debris.	Tidal Wetland	8.10	0.00
Bumgarner Habitat Protection	Protection / Maintenance	Acquisition of 18 acres in the floodway of the Middle Skagit River adjacent to Wild and Scenic River designated areas.	Riparian	18.00	0.00
Dogfish Creek Restoration	Enhancement	Restore riparian and upland plantings along Dogfish creek, a stream that supports Chinook, coho and chum salmon, steelhead and cutthroat trout. The project will also provide interpretive education kiosks and boardwalks.	Forested Wetland	13.36	0.00
Dosewallips Floodplain Acquisition Phase II	Protection / Maintenance	Acquisition of 33 acres of bottomland Dosewallips River as part of a corridor system including Dosewallips State Park.	Forested Wetland	33.00	0.50
Elledge Shoreline Protection	Protection / Maintenance	Purchase of Conservation Easement to protect from development and provide space for future restoration.	Riparian	29.00	0.64
Fenster Levee Setback Phase 1	Restoration / Re-establishment	Remove 700 linear feet of rock armoring and recontour the historic floodplain bench along the Green River, placement of large woody debris along the toe of the bank to dissipate flood energy and native plantings.	Riparian	1.00	0.00
Fisherman Bay Spit Acquisition	Protection / Maintenance	Acquisition to prevent development of a 5 lot sub-division, provide water and recreational boating access.	Beach	29.40	0.00
Joel Pritchard Park	Protection / Maintenance	Acquisition of parkland for public access and eventual restoration of feeder bluff functions through removal of a bulkhead and relocation of an upland road. The restoration of natural shoreline drift functions at this site will also help to prevent erosion of the sediment cap used to contain PAH contamination at the adjacent Wycoff Superfund site.	Beach	21.00	0.00
Kist Shoreline Acquisition	Protection / Maintenance	Purchase of heavily forested block contiguous to other open space for fish and wildlife habitat including chinook salmon and steelhead spawning and rearing areas.	Forest / Woodland	20.00	0.00
Lake Sammamish Shoreline Restoration	Enhancement	Remove invasive species, install large woody debris and plant 9000 native trees, shrubs, willow stakes and other native plants.	Riparian	4.50	0.00
Livingston Bay Nearshore Acquisition	Protection / Maintenance	The project acquires primarily tidelands and contributes to the acquisition of an easement for the upland bluffs. Long term management will transfer to the Nature Conservancy.	Tidal Wetland	3,160.00	0.00
Montgomery Duban Headlands Park	Protection / Maintenance	Strategic acquisition of the largest remaining privately-owned property on the shores of Fidalgo Island and adjacent to an existing park that protects forests, bluffs and extensive wetlands.	Forest / Woodland	37.00	0.00
Pleasant Glade Park	Protection /	Acquisition for protection of salmon stream, riparian corridor and for development of uplands for recreation such as	Field/Meadow	31.00	0.00

	Maintenance	ropes course, picnic shelters and walking trails in a rapidly urbanizing area.			
Rainier Beach Lake Shoreline Restoration	Restoration / Rehabilitation	Remove 700 linear feet of armoring, regrade shoreline slope and removal of in-water debris from a defunct marina.	Freshwater Marsh	1.00	0.00
Richert Ranch Acquisition Phase 2	Protection / Maintenance	Purchase 150 acres for eventual restoration from cow pasture to native riparian forest.	Riparian	150.00	0.00
Samish River (Peterson) Protection	Protection / Maintenance	Fee simple acquisition of 50 acres on both sides of the Samish River (approximately 0.5 mile).	Freshwater Marsh	50.00	0.50
Skookum Inlet Estuary Restoration	Restoration / Re-establishment	Remove tons of concrete beach armoring and replace an undersized culvert with a 30 foot timber bridge to allow more tidal flushing, placement of large woody debris. Marsh will provide rearing, refuge and transition habitat for coho and Chinook salmon and coastal cutthroat trout.	Tidal Wetland	2.00	0.00
South Fork Skagit Levee Setback Acquisition and Restoration	Restoration / Rehabilitation	Acquisition and levee set back to establish natural tidal surge plain functions.	Forested Wetland	37.00	0.00
West Bay Park Phase 1	Enhancement	Acquisition of first of several phases to eventually total 16.8 acres of waterfront for recreational redevelopment. Restoration of 0.5 mile of shoreline installation of a trail and observation points is planned.	Beach	4.83	0.50
Total				3,748.69	2.14
