

Year 2005 Projects

Project Name	Activity	Project Description	Habitat Type	Acreage	Linear Miles
Alhambra Creek at Martinez Adult Education Campus	Rehabilitation; protection	A failed gabion was discharging small cobble into the channel and changing the local stream morphology. This project restored and stabilized the incised channel, increased channel capacity, by regrading; brush layering replaced gabions; non-native plants removed and willow stakes and native grasses planted; provided public access to creek; 2 school buildings were moved away from top of bank.	Instream		0.04
Can-Can Club	Enhancement	Enhance 700 acres of wetlands	Tidal Wetland	700.00	
Coyote Lake-Harvey Bear Ranch	Rehabilitation	Ranchland had been previously acquired; this project reconfigured historic ranch trails to protect from soil erosion and circumvent serpentine area, site of endangered checkerspot butterfly	Grassland		3.50
CRP Wetland Enhancement, Yolo and Delta NAWCA	Enhancement	Enhance 133 acres of wetlands	Freshwater Marsh	133.00	
Decker Island	Establishment	Wetland creation as part of Delta flood control project (levee maintenance),	Freshwater Marsh	14.00	
Elmhurst Creek Invasive Plant Removal	Protection/ Maintenance	Invasive plant removal: lipidium and Salsola soda	Riparian	0.63	
Fernandez Ranch	Protection/ Maintenance	Land acquisition with future plans for riparian restoration	Grassland	700.00	
Napa-Sonoma Marsh WA-Tolay Creek	Enhancement	Levee enhancement and native plant establishment	Tidal Wetland		0.38
Potrero Hills Gun Club	Enhancement	Enhance 516 acres of wetlands	Tidal Wetland	516.00	
San Pablo Bay NAWCA, Camp 2	Enhancement	Enhance 608 acres of freshwater wetland	Freshwater Marsh	608.00	
San Pablo Bay NAWCA, Ringstrom Bay Enhancement	Enhancement	Habitat and levee enhancement	Freshwater Marsh	313.00	2.00
Sears Point Restoration Project	Protection/ Maintenance	Land acquisition to protect and restore this agricultural area	Tidal Wetland	2,327.00	
Suisun Marsh, Noxious Weed Control	Enhancement	Invasive weed control	Freshwater Marsh	225.00	
Triangle Marsh	Rehabilitation	Excavation and removal of fill to lower wetland elevation; excavation of a channel to allow for tidal inundation of area; placement of fill to create upland and transitional habitat	Tidal Wetland	32.00	
Vallejo Swett Ranch	Protection/ Maintenance	This property was acquired to protect its natural resources, including endangered species, and historical use of site (grazing)	Grassland	905.00	
Total				6,473.63	5.92
